New York, NY 10005

Dear Alex:

It is indeed generous of you to make a commitment to the University's Pooled Income Fund. I know that considerations of the need for Trustee leadership in the new Development Program, as well as the importance of the biomedical research and teaching underway at the University, have played a role in your decision. Your especially thoughtful gift is very deeply appreciated and most helpful.

As I indicated in our telephone conversation on Friday, the charitable remainder value in the case of an income interest retained for a female beneficiary, insurance age 55, is 30.141% of the gift transfer. Enclosed is a draft form of agreement for your review.

Sincerely,

R. L. Van Valer
